'Don't Make The Black Kids Angry': The Hoax Of Black Victimization And Those Who Enable It.

Synopsis

Black people are relentless victims of relentless white violence, all the time. Everywhere. For No Reason What So Ever. This is the biggest lie of our generation. It was also the biggest news story of 2014. Easy to find in the New York Times, CNN, MSNBC, Spike Lee, Oprah, USA Today, and lots of other places. That is a hoax. That is what this book is about. How black crime and violence is astronomically out of proportion, but ignored, condoned, excused, denied, and even encouraged. War on black people, anyone? The President got in on the act in 2014 when he told the Congressional Black Caucus about a "justice gap." Where "too many young men of color feel targeted by law enforcement. Guilty of walking while black. Driving while black. Judged by stereotypes that fuel fear and resentment and hopelessness." That is the biggest lie of our generation. Because just the opposite is true. Black crime and violence against whites, gays, women, seniors, young people and lots of others is astronomically out of proportion. It just won't quit. Neither will the excuses. Or the denials. Or the black on white hostility. Or those who encourage it. That is what 'Don't Make the Black Kids Angry' is about.

I live in rural America. The nearest city's some distance away and I've never been there after dark. After reading "Don't Make The Black Kids Angry" by Colin Flaherty, I don't intend to go there after dark. In fact, I'm not too keen on going there in the daylight. I'm not young. I'm 68 and a retired Military Veteran. I served with people of all races and religious backgrounds. I don't consider myself

prejudiced. I respect all people. However, my eyes have been opened to the hatred being taught in inner cities all over the country, no check that. All over the world where whites are confronted by Blacks. It seems most of this violence is not being done by military veterans. Maybe we've learned to be more tolerant. Colin Flaherty gives details about "The Knockout Game" which we're supposed to believe is a figment of the white populations imagination. Except he can provide documented evidence. He also gives details and specific information of Black Mob violence all over the nation. Most of this violence is not reported by the news media. He even includes links to video clips. (Note: Most of these clips were on YouTube. YouTube now has a policy of not permitting video of Black on White violence like The Knockout Game and Black Mob Violence. Clips of this nature have been removed so the links are broken.) Flaherty points out that there are many apologists ready and willing to overlook the behavior highlighted in this books. According to Liberals, White people deserve these attacks and this senseless violence because of 400 years of slavery. (I have never owned a slave and neither have any of my ancestors, so why blame me?) This book is definitely a "Must Read".
