Age Range: 6 - 10 years

Grade Level: Preschool - 02

Customer Reviews

I'm always looking for books to read to my 3 year old daughter showing girls playing sports, being strong, competitive, etc, so I picked this one up and it did not disappoint, although it's a bit too long and wordy for a 3 -year- old, probably better for a 4+. Two girls' soccer teams test their skills during the championship game. Lots of energy and excitement. As an added bonus, it introduces math skills (fractions) and time-telling concepts. Love it! The book also has a guide for parents of time-study activities.

This book has a very cute story line and my students really got into. It served as an additional learning aid for time.

Many of these books are featured on the Math Standards for use in teaching various skills. They are

good at introducing the skill, as well as giving a practical approach.

This book was great. Thanks so much. The packaging was also great! Thank you thank you thank you !!!!!!!!!
