Don't get this version if have a text-to-speech program. The publishers will only let you highlight so much text before it blocks you because it assumes you want to paste the text somewhere, which I have never done. I am not "copying" the text. I am simply highlighting it and then click play on my IVONA text to speech program and listen to it like an audio book. It's just the way I learn. What gets me is IVONA is an company and yet they won't allow you to just listen to the book if you so choose. I am not happy and am returning it.

Good for the price, cheaper than buying...

Excellent read! Has a lot of psychology and sociology mixed into it. I've learned alot studying the rich illustrations and stories.
