Customer Reviews

I'm currently using this book for my CNA class and I love it. The way this book is written makes it very easy to read and understand. Everything was explain clearly with words that I understand. The key terms and other medical term in this book is explain well, I looked up the words in my dictionary and the definition is not as easy to understand as the book. There's practice test after each chapter which I enjoy doing to see how well I do on each chapter. There's answers to the test in the back of the book so you can correct yourself. I'm not the kind that likes to study and don't study well. I'm also not the smart type, but if I can do it with this book, so can you.

I am finding it so mush interesting and is well written with a lot of explanation, organized in a way that you can remember easier what you read.For CNA preparation i think is wonderful to get the best preparation for the exam. Thanks!

very up to date and informative

I learned at lot of skills to assist the handicapped and elderly. It also taught some healthcare laws and rights. Very informative. I passed my class with a 96%

Yes all my expectations were met. Everything was exactly how it was described and also it came way before I was suppose to receive it.Two Thumbs Up!!!

I brought this book for my son for his CNA class. My son says the book is excellent with the class he is taking

Item was as described, came within two days as stated. Very happy with the purchase.

It's the exact book I needed for my class and it was delivered in hours! Thank you
