The 5-Minute Pain Management Consult (The 5-Minute Consult Series)

Synopsis

This new addition to The 5-Minute Consult Series is a clinically oriented quick-consult reference for pain management. More than 150 conditions associated with pain and concomitant mental health diagnoses are thoroughly and concisely presented in the famous fast-access 5-Minute Consult format. Each entry briefly describes the condition and presents succinct, bulleted facts under boldface headings: basics (epidemiology, risk factors, pathophysiology, etiology, prevention, associated conditions); diagnosis (signs and symptoms, history, physical exam, lab tests, imaging, differential diagnosis); treatment (medications, surgery); and follow-up (prognosis, issues for referral). Each entry includes ICD9-CM and CPT codes. Two Tables of Contents—one alphabetical and one organized by organ system—allow quick look-up of topics.

Customer Reviews

Dividing up the body and clinical syndromes into a hundred or more separate entities with individual prescriptions for focused pain care, because a lot of specific ideas. It falls short regarding chronic pain management and narcotic prescribing.
