The Marriage And Family Experience: Intimate Relationships In A Changing Society

Synopsis

THE MARRIAGE & FAMILY EXPERIENCE offers a realistic look at all kinds of families and relationships today. The book's experienced authors help you see and understand the underlying issues at work in marriages, families, and all kinds of relationships. Real-life cross-cultural examples and features that encourage you to reflect on your own life and behavior make the Twelfth Edition accessible and compelling. You'll find the latest information on adoptive parenting, childbearing patterns, gay and lesbian families, the meaning of virginity, gender roles and sexuality, communication and conflict resolution, the influence of popular culture, and working families. This is a book you can relate to--and one you will want to read. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>.

Reading this book felt like I was reading the results of a study. Too many citations not enough original content. Had this book for a sociology class and it made the course more difficult. I had the eBook version and it wasn't any better. Should have a word search tool like most online books. Also, citing from this book is a nightmare since everything written is already cited from other publishings

I rented this book for school and it was actually interesting. It had tons of information ranging from families and divorce, statistics, and more. Rented it for school and I actually enjoyed it. Great stuff to know and learn about especially if you are studying to be something in that field.

I bought this book for a class I am taking for college. It has a lot of information, I wish it touched based on more subjects and detailed a few more areas, but all in all it was a good book for class. Received in a timely manner

Basic Marriage and Family Development 101. If you want to know how a marriage works, delimas that may arise, and how to effectively communicate this is the book. I got it for a psychology class but if I would have read this book before getting married maybe I wouldn't have gotten married to the individual that I did. Sometimes I would rather read and learn than to experience and learn.

I took this class in the Spring of 2014 with a different edition of this book. I sold the book back not knowing that I'd need it again. To make a long story short this version is far better, and so is my class for the fall of 2014.

Very interesting book, wish I had more time to fully read it. My class is accelerated and I get to skim and find reference to what I need.

Very interesting books and up to date information about families.... Sociology

Great text worked really well with my class and providing a solid foundation.
