The Ministry Of Motherhood: Following Christ's Example In Reaching The Hearts Of Our Children

Synopsis

Because Motherhood Isnâ™t Just a Job. Itâ™s a Calling. A motherâ™s day is packed with a multitude of tasks that require energy and time: preparing meals, washing clothes, straightening and cleaning the house, and caring for children. These jobs all are necessary and crucially important. But in the dailyness of providing for a childâ™s physical, emotional, and social needs, vital opportunities for spiritual nurture and training can be overlooked. This doesnâ™t have to be the case. You can focus your energy on what matters most. Learn how you can:

- Make Lifeâ™s Mundane and Nitty-Gritty Moments Work for You and Not Against You.
- Discover Ways to Make Character-Building a Natural Part of Life.
- Teach Your Child in the Same Way Jesus Taught the Disciples.
- Pass on Crucial Gifts that Will Serve Your Family for a Lifetime.

Using biblical wisdom and practical teachings, Sally Clarkson shows how you can make a lasting difference in your childâ™s life by following the pattern Christ set with his own disciplesâ“a model that will inspire and equip you to intentionally embrace the rewarding, desperately needed, and immeasurably valuable Ministry of Motherhood.

Customer Reviews

I really enjoyed reading this book, and was encouraged as well as challenged through it. While I didn't necessarily agree with everything in this book, not necessarily in the parenting realm but more in thinking about some of the spiritual truths as I understand them, I still think it will prove useful in my own life. I think it's a great place to start, for those moms who need a starting place (or a starting over kind of place), to create an idea of how they want to go about their motherhood stage of life. It's

a great platform for mothers to develop a plan of action or a mission statement or goal for how they parent. I really think this would be a great book for a young mother, maybe coming upon her first troubling experience with a kid and wondering how best to handle it. I think Mrs. Clarkson's model for developing her mothering tendencies - focusing on the life of Jesus and taking lessons from how He taught in order to recognize how to lead her own children - is absolutely correct and a great way for us to think about our parenting. It's great also for those with younger kids who, while having walked with the Lord for several years, might still be learning how to model His teachings in their own lives and how to lead their children in the ways of Christ. She helped me recognize that motherhood is, indeed, a ministry I can participate in right now. I've had a hard time wrapping my mind around how motherhood is a ministry; I understand that it's of the Lord and the right thing for a season, but I couldn't quite reconcile that with it actually being a form of ministry. I understand it better now, recognizing that it's my job to not only disciple my children but to nurture them so that THEY can then become disciplers as well.
