Liberty And Tyranny: A Conservative Manifesto

Synopsis

Conservative talk radio's fastest-growing superstar is also a New York Times best-selling phenomenon: the author of the groundbreaking critique of the Supreme Court, *Men in Black*, and the deeply personal dog lover's memoir *Rescuing Sprite*, Mark R. Levin now delivers the book that characterizes both his devotion to his more than 5 million listeners and his love of our country and the legacy of our Founding Fathers. *Liberty and Tyranny* is Mark R. Levin's clarion call to conservative America, a new manifesto for the conservative movement for the 21st century. In the face of the modern liberal assault on Constitution-based values, an attack that has steadily snowballed since President Roosevelt's New Deal of the 1930s and resulted in a federal government that is a massive, unaccountable conglomerate, the time for re-enforcing the intellectual and practical case for conservatism is now. Conservative beliefs in individual freedoms do, in the end, stand for liberty for all Americans, while liberal dictates lead to the breakdown of civilized society - in short, tyranny. Looking back to look to the future, Levin writes, "Conservatism is the antidote to tyranny precisely because its principles are our founding principles." And in a series of powerful essays, Levin lays out how conservatives can counter the liberal corrosion that has filtered into every timely issue affecting our daily lives, from the economy to health care, global warming, immigration, and more -- and illustrates how change, as seen through the conservative lens, is always prudent, and always an enhancement to individual freedom. As provocative, well-reasoned, robust, and informed as his on-air commentary, Levin's narrative will galvanize listeners to begin a new era in conservative thinking and action.

ASIN: B002124A56

Best Sellers Rank: #77 inÂ Books > Politics & Social Sciences > Politics & Government > Elections & Political Process > Political Parties #292 inÂ Books > Politics & Social Sciences >

Customer Reviews

In general, the louder someone complains, the closer you are to the truth. I anticipate numerous ad hominem 'reviews' from statists posted here. Do not let them talk you out of reading *Liberty & Tyranny*. In any given generation, there are only a handful authors and thinkers whose creations can survive the ravages of time and the shifting sands of societal evolution. It is rarer still when a key book is written, recognized, and celebrated contemporarily. Mark R. Levin logically lays out what has made the United States of America different from all other nations in the history of humanity. He re-introduces us to the founders and framers, and those people who inspired them long ago. At its most basic elements, our country was founded on the ideals of life, liberty, and the pursuit of happiness...and that we have these rights conferred on us, not by man or government, but by Natural Law, which originates with the Creator. Mr. Levin puts us back in touch with our founding doctrines, which are the at the very heart of what conservatism is and has always been. For too long, Conservatives have let themselves be defined by the media. Mr. Levin's book recasts what it is to be a proud Conservative, and gives voice to those who are often silent in the face of ideological slander. If you believe in this great country, if you believe in truth and honesty, if you believe in life and principles, if you believe in freedom and patriotism, if you believe that all people are created equal and it is up to the individual to succeed according to their talents and interests, and if you believe in a smaller efficient government, and lower taxes, then this book is for you. NY Times Best Seller - Hardcover Nonfiction - #1 for 12, #2 for 6 weeks!
