Why 4 stars? Because my older volume had a stapled center binding making it easier to thumb the pages and lay the book open without having to be held open. To lay this flat on a desk so the page stays open would break the glued binding. Great size for your back pocket. I'd love to have a spiral bound edition for my desk.

Attention all people of the Baseball Park, these are the governed realms of Baseball and they are instilled at all levels. If you like to know more in all Truthfull of the game, this is The Purchase.

The print in this book is so small, it's barely readable. Very disappointed. Assuming it was done so there was less pages for them to print. They save money and I lose my eyesight from straining to read.

I thought that since it wasn't released until June it would include the new speed-up rules and other

new rules but it did not. Disappointing.

What you would expect. Would be nice if they made the print bigger. Great thing for little league and travel ball players to study.

Everything you would ever want to know about MLB rules and the recent changes.

It's a rule book. It has all the rules in an organized fashion. ‡ ‡.
