Review Questions In Ophthalmology

Synopsis

Approach your exams with confidence using *Review Questions in Ophthalmology, Third Edition*. You'll find a concise review of all specialty rotations in ophthalmology, plus key areas such as embryology, anatomy, pediatrics, plastics, and lenses. Real-life clinical cases and more than 1,000 multiple choice questions with answers and explanations in this comprehensive review of ophthalmology provide core knowledge for all residents and fellows in ophthalmology, preparing you for success both on your exams and in your practice! Test yourself with 1,000+ multiple choice questions, including answers and explanations. Clearly visualize what you're likely to see on exams and in practice, thanks to more than 400 clinical photographs, fluorescein angiograms, and CT, MRI, and ultrasound images. Focus on common diseases for more useful self-assessment and real-life clinical preparation. LWW's Online Resources for review content is all housed on ThePoint, which provides flexible learning solutions and resources using *Review Questions in Ophthalmology, 3rd Edition*. Test yourself with 1,000+ multiple choice questions, including answers and explanations. More than 400 clinical images (including photographs, fluorescein angiograms, and CT, MRI, and ultrasound images) Complete content for easy navigation

Customer Reviews

Very good if you are preparing for the EBO exams, the answers to the questions give you a lot of background knowledge but I would still recommend reading a textbook to put everything into a bigger context. I used it in combination with the review of ophthalmology by Trattler and that worked

perfectly for me.

very good question book for Part II
