Cellular Structure Of The Human Cerebral Cortex: Translated And Edited By L.C. Triarhou (Thessaloniki) Plus Poster: 'The 107 Cortical ... Georg N. Koskinas In The Adult Human Brain'

Synopsis

Originally published in German and French, the work is considered to be unsurpassed in both its scientific eloquence and accurate photographic documentation. Revising Brodmann's cortical parcellation system, von Economo took cytoarchitectonics to a new zenith. The revised edition contains newly compiled tables with extensive quantitative data on the 107 cytoarchitectonic areas of Economo and Koskinas, plus all the "transition" areas and full reproductions of the original microphotographs. It also contains the concluding chapter that appeared only in the 1929 English edition, with Economo's later views on cytoarchitectonic neuropathology and evolutionary neuroscience, enriched with material and figures from his later studies. Last but not least a newly discovered manuscript by Georg N. Koskinas, appears in English for the first time. In it, Economo's collaborator presents an insightful analysis of the "General Part" of their larger textbook of cytoarchitectonics.
