Parenting For Single Mothers: Being A Good Mom And Raising Great Kids (Single Parent, Single Mom, Parenting Boys, Parenting Girls)

Synopsis

Parent effectiveness training for mothers:With the changing social dynamics in the society, it is only natural to expect motherhood to progress and develop. In todayâ™s world, single moms are not only a common but also an encouraging phenomenon. This allows single women the autonomy to create their own families. On the flipside, there is an overall lack of proper guidance on being a single mother, which is frustrating and disappointing. Single parenting can be tricky, especially if you are not in it by choice. If you have had a spouse or a partner who helped you with raising the kids, but circumstances force you to do the job on your own, then it can be frustrating and extremely demanding. This is why â™Parenting for Single Mothers: Being a Good Mom and Raising Great Kidsâ™ is an ideal guide for single mothers. Through this book, you can learn the best possible emotional, financial and social setting to bring up healthy and smart children. You will learn:- How to be prepared as a single mother parent.- Being a great parent at every stage in your child's life.- How to deal with the issue of absent parent from your child/children's life.- Tips, suggestion for running yours household efficiently and within your budget.- Dealing with financial security and financial needs of your child/children.- Introducing the new man in your life to your child/children

Customer Reviews

This book a must for new moms. Coming from a single mom, I know that's its hard and I wish my mom was able to read this book while I was young. It gave great tips on how to get prepared for being a single mom and good advice on the do's and don'ts. Deal with the financial aspect is tough, but this book is great guide on how to avoid some of those pitfalls.

While I don't know what it is like to be a single mom (since I am a man), there are several people in my family and close network of friends that are single mothers. I wanted to read this book to see how I could be a help to them. I really don't think that most people realize how hard it is to be a single mom and to raise good kids in today's environment. I really liked how this book covered so many aspects of the single mom experience, focusing mainly on how to be a good mother. It talked about how to deal with the issue of the missing parent, as well as how to effectively manage the household and take care of your family financial. This book has some really good advice.

I have a good friend of mine that is going through a divorce so she is about to be a single mom. I bought this book to read so maybe I would have an inkling of an idea of what she is about to experience as a single mom. From financial and emotional woes to adding a new man into the childâ™s life, the book covers a lot of important topics. I really enjoyed it and will be passing it along.

If you have a child or multiple children and you're single, then this book is for you. This Kindle book helps all moms or dads go through life successfully while being single. It has many resources to help single parents attain a better quality of life in their personal lives and in their children's lives as well! Highly recommended!
