Historical And Philosophical Issues In The Conservation Of Cultural Heritage (Readings In Conservation)

Synopsis

This is the first comprehensive collection of texts on the conservation of art and architecture to be published in the English language. Designed for students of art history as well as conservation, the book consists of forty-five texts, some never before translated into English and many originally published only in obscure or foreign journals. The thirty major art historians and scholars represented raise questions such as when to restore, what to preserve, and how to maintain aesthetic character. Readings come from the work of such writers as Ruskin, Berenson, Clive Bell, Cesare Brandi, Kenneth Clark, Erwin Panofsky, E.H. Gombrich, Marie Cl. Berducou, and Paul Philippot. The fully illustrated book also contains references, a glossary of terms, and an index.
