About Shell Education Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.

Customer Reviews

I love how this begins with shorter passages and progresses into longer ones as the year goes on. I

also like the writing piece at the end of each week to get students to think deeper about what they have been reading all week.

I am never disappointed with the 180 days of _____ workbooks! Being a teacher, I am always looking for different materials to use to challenge my kids or give them just for practice/review. These are by far the best brand of workbooks you could find.

Great short exercises that get to the point and help with comprehension.

180 days of reading is great curriculum for the homeschooled second grader! My daughter even likes it. It's enough work for the whole year.

Fabulous series in general but I'd have to say my favorite is this one. The reading comprehension checks are on grade level and clear. Such a well done book!

I use this all of the time with my 2nd graders. Great reading comprehension practice.
