No new information here. Unless you're under 25 you've read it all before. Glad it was free. Now it's deleted.

This weekend I had the pleasure of reading three books written by Lanie Stevens and I gave them all 5 stars. Originally I was searching for a book dealing with the Laws of Attraction as it pertains to relationships. The first book I read by Ms Stevens was Pussy Whip, an excellent book for women who are struggling in relationships with men and who need to hear another woman tell it like it is! Though the title says "Pussy", Stevens in most cases isn't referring to your vagina! She uses the word to remind us of how we are different from a man and that we have the power, because we have vaginas! Men would do and say anything to get them, and we women are too fast at relinquishing our Pussy Power to our detriment! In Pussy Whip, she shows us an easy and effective technique for keeping our man attracted to us, by applying the Laws of Attraction. If you have read "The Secret" and many of the other books on the Laws of Attraction, you would know that they don't tell you HOW to actually attract your desires, Lanie Stevens does!! And for anyone with an interest in mind control, and the power of the subconscious mind, you will find these books of great interest. Her second book "How to make him Burn with Desire" follows on from "Pussy Whip". You will also enjoy this book. And finally the third book, "Pussy Power" teaches you some of the things you have forgotten as a woman, when it comes to finding your man, dating him and having him commit to the relationship. But please do heed her warning! Don't let your man read these books! For women only!!!

I have found this third book of Lanie Steven very helpful it has really boosted my self esteem! I have read all the 3 books of Lanie Stevens in 2 hours and I can tell they have changed my life! Thanks you Lanie

This book will empower any woman, especially those that have never experienced a truly satisfying relationship. If you think you're not too lucky with men, this book will definitely help you! It gives you the basics on how to get and keep your man and it offers the best advice on things that could be

sabotaging your efforts. If you want to be a man magnet and have success in your current relationship, then this is the book that will change you for the better!

I picked up all 3 books as they were so economically priced. The majority of the information is a regurgitation of the majority of dating books, however, there is a lot included about the law of attraction. I would pick up the book just to have a different perspective.

I have read perhaps a hundred relationship books. This book is fun to read and somewhat empowering to desperate women. However, I personally don't agree with the values implied. I don't agree to treat men like training a pet to get what we want. I also don't agree that it's like a barter exchange to feed what he needs to get what we need. I just think a bit higher of what we both sexes are and don't believe that true love comes from manipulation and game playing.

This book was really boring and more common sense for the adult mature woman. I will share it with my 19 year old virginal niece though. I think it's great for those just starting out on the dating scene. Or for those with mid to low self esteem.

extremely helpful to women who are too trusting of men, and are not familiar with the game's men play off of lady's emotions. this book will make you think about what you should NOT expect from any MAN, and remind you, of how special you are as a woman, and the ultimate POWER that you have over any man that pursue YOU. this book is good, but it was not powerful enough for me because I know the things that the writer is speaking of. however for any woman whom do not have this knowledge, READ THIS BOOK. Thank you, Lanie Stevens.
