Body Language: Discover And Understand The Psychological Secrets Behind Reading And Benefitting From Body Language (Read People On Sight - Body Communication - Nonverbal Communication)

Synopsis

The New Body Language Book With All The Secrets Is Finally Here! And you can benefit from them right away!***Claim your FREE Bonus Inside!***"Body Language" Is Now Available For You For Only \$0.99! Normal Price \$7.97. Read on your PC, Mac, smart phone, tablet or Kindle device. When we talk we say very little because it's our body that does the real talking! We express so much more subconsciously through our physical behavior, body posture, gestures, eye movement, facial expressions, touch and the use of space. So why not learn how to use this to your advantage? Or just take time to read about because it is very interesting. Body Language is a powerful tool that you can use in every aspect of your life. This book will give you an in depth insight into how to read body language to decipher the hidden agenda of any dialogue or interaction. But also how you could use it yourself and when to do it. Mastering the skills in this book will enhance your relationships with your spouse, partner or family members, it could even further your career by helping you to ace that interview or even help you to build a great rapport with your work colleagues or boss. Contrary to common belief learning how to read body language is not difficult. Body Language takes you by the hand and shows you how anyone can read the tell-tale signs of body language and with it know what the other person is REALLY thinking contrary to what they might be actually saying. The skills you will learn in this book will vastly improve your social interactions and relationships whether they be business or pleasure. This book has the ability to totally change your life. You will learn what body language signs you should look for when you want to know whether the person who is talking to you is telling the truth or is trying to con you. It will always give you that edge so you can adjust your game plan to steer things in the direction YOU want! Here is a sneak peek about what will learn and read about: Another Real Language The Silence of a Thousand Words Mind Over Matter or Matter Over Mind? Customer Reviews

It's amazing that there are so many 5 star reviews within a couple of weeks after publication. Rave reviews have been posted more than five times everyday. It's like a million seller. Most of these 4-5 star reviews are fake. Seriously. Check out the reviewers. You'll see most of their reviews include the same books with similar language and tones. They are all cheap ebook review specialists. Buyers beware.

The book title is misleading. This book is not on how to read the body language but on how to use the body language, especially with the power posture. You'd better read Amy Cuddy's original book "Presence" to really learn about power poses. If you want to learn what body language is and how to understand others, this book is not for you. Bad organization and presentation of the subject matter.

This book is so poorly organized. There's only one chapter on reading the body language. Most of the content is on the power poses. If you want to learn how to read people's body language, skip this one.

As another reviewer noted, this book is about power poses, popularized by Amy Cuddy. It's a total plagiarism presenting the material without citing her work. And this book is not comprehensive at all on the topic of body language. Instead of buying this short book, you'll learn more by watching Amy Cuddy's famous TED talk: "Your Body Language Shapes Who You Are"

Divided into eight chapters, this book is packed with great, useful and interesting stuff about Body Language. I like how author looks at it as another real language. It was also very interesting to read how your handshake can say a lot about you and how can you read body language. The book is well-written and easy to follow. I find it very helpful for everyday use, because we are always surrounded with body language, but we don't pay much attention to it. By reading this, you can really change the way to look at it, being more analytic and understand people's emotions better.

This is very important for me as a teacher. I want to know more about how it can affect my students when they attend their first interview. I always tell them that words are not enough. Now I will be able to teach them how to have the best gestures. I can also apply it for myself and get good results from doing it to reading other people's mind. For all I know, body language is more honest than simply listening to words. Thanks to this book for making it possible.

Good book on understanding body language...learn how to exercise proper judgement by effectively analyzing body language communicated by persons in different social settings. Learn how to present yourself confidently through the use of proper body language and discover how to use body language to interact with persons.

This book is showing how to read another person's body language effectively. It has a section for improving your own body language and projecting confidence to others. This book is informative in this matters. I will recommend this book.
