Customer Reviews

It was a bit more worn than I expected but I needed it for class so it worked fine. The inside was fine he cover was really bent and crinkled and torn in the left hand side but it worked. I will not be selling it back as its not really in good shape.

Came quite quickly and was as described. Always remember that you won't be getting a new book when you're buying a used one. This has the expected wear and tear, but suffices for my needs. well worth the reduced price over new.

I gave it five stars because it came on time, and was exactly what they said it would be...not because I love it...because it's a textbook. I'd love it more if I didn't have to write six page essays

with it.

Great book to read as much as I am not interested in literature, but needed it for a course. The price was okay, but the book was probably in poor conditions. However, I was aware of it, so my fault I guess.

I thought I was buying a new book, it came sealed and everything; however, when I scrolled through there was markings on a few pages. Still a good buy though. Will shop again

I bought this because my daughter needed it for an online summer course. The book arrived sooner than I expected and it was in 100% excellent condition.

I enjoyed this book even if it was a required purchase. I used it for school, but it gave me excerpts of books that I will now purchase to read in full.

This is great product, better than what they sell in the store. Product arrived before they said it would. I would recommend them again.
