Allen's Compounded Formulations : The Complete U.S. Pharmacist Collection

Synopsis

Presents 168 of Allen's "Contemporary Compounding" columns reprinted from U.S. Pharmacist, and is organized by therapeutic category. Many of the columns include updated stability information from USP25/NF20. An introduction to good compounding practices, tables presenting equivalent values for compounding calculations, a directory of suppliers of compounding chemicals, a glossary of terms, and a dosage form index and drug index supplement the columns. The basic formulas offered in this collection provide for some uniformity of preparation, as well as a starting point for further modification for specific patients. The volume is designed also to provide documentation for the use of these basic formulas as presented in the contemporary literature.

Book Information

Paperback: 375 pages

Publisher: APhA Publications; 1 edition (March 25, 2003)

Language: English

ISBN-10: 1582120412

ISBN-13: 978-1582120416

Product Dimensions: 8.4 x 0.8 x 10.9 inches

Shipping Weight: 2.1 pounds
