Customer Reviews

I found product well organized, gives a birds eye view of important gramatical information which can be used as a reference. I would recommend this product to anyone interested in learning the language of Arabic.

I was expecting just a page (front and back) of very basic grammar rules. But it is actually a brochure which gives me three front and back pages. I love it! All of the grammar rules I've studied are in there with exactly the information I need to remember. There is also a bunch of other things that I haven't studied yet as I am only in intermediate Arabic. But I do plan on studying beyond advanced to the business level and I know this will be my handy dandy companion through it all.

I often find myself pulling this out for quick questions instead of digging through my more elaborate texts. The section on conjunctions is particularly useful.

Good layout but the print is a little bit too small to read.

This is useful and helpful but I wish the letters were larger. The size is small and hard to see. But what is on this quick guide is very good! Just needs to be a bit larger. I would recommend this.

Most Quick Study grammar cards are excellent and systematically present information such as noun cases and verb tenses and conjugations. This card does not. Instead there are columns of trivia and arcane instructions, with a single example of each tense (if you're lucky). No explanation as to whether the conjugations are regular or irregular or if there even are irregular conjugations. No grid for easily comparing, say, first person singular conjugations across tenses. Practically useless.

Came so fast!! Very organized and even has the not so common letters like "P", "V" and just the Normal "G" ! Very unexpected and I am grateful for that! Just finished taking my Arabic class so this study guide will be perfect

It has all the features I want, I'm just not yet at the level where I can use all of them.
