Unofficial Guide To FamilySearch.org: How To Find Your Family History On The Largest Free Genealogy Website

Synopsis

Master the #1 Free Genealogy Website! Discover your ancestry on FamilySearch.org, the world's largest free genealogy website. This in-depth user guide shows you how to find your family in the site's databases of more than 3.5 billion names and millions of digitized historical records spanning the globe. Learn how to maximize all of FamilySearch.org's research tools--including hard-to-find features--to extend your family tree in America and the old country. In this book, you'll find:

- Step-by-step strategies to craft search queries that find ancestors fast
- Practical pointers for locating your ancestors in record collections that aren't searchable
- Detailed overviews of FamilySearch.org's major U.S. collections, with helpful record explanations to inform your research
- Guidance for using FamilySearch.org's vast record collections from Europe, Canada, Mexico and 100-plus countries around the world
- Tips for creating and managing your family tree on FamilySearch.org
- Secrets to utilizing user-submitted genealogies, 200,000 digitized family history books, and the FamilySearch catalog of 2.4 million offline resources you can borrow through a local FamilySearch Center
- Worksheets and checklists to track your research progress

Illustrated step-by-step examples teach you exactly how to apply these tips and techniques to your own research. Whether you're new to FamilySearch.org or you're a longtime user, you'll find the guidance you need to discover your ancestors and make the most of the site's valuable resources.

Customer Reviews

This book is clearly written and information is easily explainable. This book is great for beginner's who are just starting their family history or for those who are not familiar with FamilySearch.org. However, this book provides little to no new information for those who are more experience with

We can never be too complacent about our research and every chance to improve and find that important record must not be missed. This guide leads us to places not previously thought of and how happy I am to add this volume to my must have list.

This is a very inexpensive way to get started with your family research. I have decided to put-off subscribing to those expensive ancestry sites until I am at some point in dire need of their help. So far, I don't think I will need their help for sometime. This Unofficial Guide is not only a simply way to get started, but holds a fund of information for the novice. I have eight or ten books on the subject, and this is by far the most practical guide to use.

This guide is well written, easy to follow and it has been a big help in using the site for genealogy. I seemed to be at the end for discovering new records but the book has given me new ways to search and discover.

This is a must have for those doing Genealogy on Family Search.org. Full of information i never knew. I strongly recommend this book.

I got this for my husband who is interested in getting into the more difficult parts of Family History, but prefers simplified explanations and directions. He did a lot of research for just the right book and this is the one he chose. Thanks for publishing a simple book for beginners.

Excellent book for the beginner using Family Search

The book describes resources to search for ancestors that are available on the FamilySearch web site.
