Diamond In The Dust: The Biography Of Ian Stuart

Synopsis

Ian Stuart Donaldson was the first major neo-Nazi rock star who almost single-handedly created the racist skinhead movement which spread all over the world from its humble beginnings in London. This account, written by one of his friends from inside the movement, provides many fascinating details of the career of one of rock music's most influential, feared, radical and shocking stars who became an icon for thousands of disaffected young white kids.

Hail Ian Sturt Donaldson. This story is well told and fairly accurate. I have confirmed this with Ian's friend and member of his security team Del O'Connor. There is a part in the book that references a book Ian had been writing entrusted to Del. That book has since been published. The claim that Del stole the book is false.

Anti-racist Skin here but still a fan. I was curious hoping to hear stories of Skrewdriver mingling with other London Bands and such. Nope, nothing good here. Mostly lyrics and stupid racial spew. His death was a conspiracy? Give me a break!
