Customer Reviews

Need this book for one of my classes. Really great the wrapper around the book was ripped a little when i got it but other than that everything was perfect. My college sells this book for 40\$ brand new so i saved some money! :)

This came fast not a long wait all. It's wasn't used so I was able to use it for my reading class. There was no stains, rips everything was secured together. I would recommend if you need it for your reading college courses

This book is required for my reading class and this is the most interesting textbook I have ever owned. It breaks everything down to be understandable.

Very helpful, especially if English is your second language. Very recommend to buy it if you want successful complete Nelson-Denny test or other reading tests.

I bought it used and expected most pages to have writing but 2 pages were missing from this book. I had class work on it and they were ripped apart lol.

Was in need for my summer class, and it turned out to be pretty helpful yet also easily

understanding at the same time.

good price, good product! For students, it is great way to save money! I will recommend my friends!

^ _ ^

I wish I'd come across this book before I took the GRE. It would have really helped.
