Synopsis

TRUE STORIES OF THE MISSING: UNEXPLAINED DISAPPEARANCES & MISSING

PEOPLE. Missing People Case Files Series; Unexplained Disappearances & Missing People volume

2) How can someone literally vanish into thin air? How does someone disappear without trace, never to be seen again? Leaving only the smallest of clues behind? Clues that often lead only to more questions? Here are some of the most baffling cases of people disappearing... Excerpts; 'The pages of a romance novel seemed to have come to life when a book is found opened at a page where the heroine is violently abducted, and the woman reading it is gone. Had she been reading it? Or had someone placed it there as a taunting message to the police who would discover that sheâ™d been abducted, just like the main character in the book?' âˆ™ Having made it up to the peak that morning after the hike up, they were on the descent when they stopped to take in the view. Her friend had his back turned to her as he took in the scenery. When he turned back around, he couldnâ™t see her. He looked all around and still he couldnâ™t see his hiking partner. He started walking around in confusion, completely baffled that one moment she was standing just yards away from him and then seconds later she wasnâ™t there any more. He shouted her name, turned in every direction then in panic he raced down the trail to find the nearest rangers, and search teams were brought in immediately. The S&R effort included trained search dogs and infra-red heat seeking helicopters. What baffled everyone was the speed at which she seemed to have vanished from sight. Why couldnâ™t the heat-seeking helicopters find a body signature? Why couldnâ™t the sniffer dogs pick up her scent?' âˆ™ The next day her car was discovered abandoned at the airport and inside was her belongings along with over \$500 in cash and her cell phone. There were also copies of strange emails sheâ™d sent to the US Government, accusing them of trying to kill her, along with a bizarre drawing of a woman who looked like her, who was bound and gagged. âˆ™ âˆ™ A swear word uttered in surprise and shock was the last thing his father heard, ending a fifty minute telephone call as his father kept him on the telephone, trying to find him. His son had called to say heâ™d run his car into a dried mud bank and couldnâ™t get it out. Heâ™d asked his parents to come get him. It didnâ™t sound like he had fallen over or tripped up; it sounded like he was shocked by something, even horrified by something; but by what? Whatever it was, he didnâ™t answer his phone again, and they had no idea what had just happened to him, where he was, or what might be happening to him still. âˆ™ âˆ™ She was last seen at around 3am walking alone and a camera picks her up walking into an empty lot. When sheâ™d said she was going home, one of her friends says heâ™d walked partly back with her and watched her walking along the sidewalk toward her apartment, a couple of blocks away. She never made it back to her

apartment.â™ˆWhen she awoke suddenly in the middle of the night, she felt the bed for her husband, but was shocked to discover that both the bed and the room were empty. It was just past two am. Nothing apart from her husband seemed to be missing from the room. The car keys, his clothes and wallet were all still in the room; even his glasses. A search was started that was to last three days. Helicopters searched above for him, fire-fighters dredged the creeks, students from the college helped. He had a limp, and he was in pyjamas. He was unmissable. But no-one saw any sign of him.â™ˆShe somehow vanished while walking along that busy and packed sidewalk in Manhattan. It was peak commuter time just coming up to 9am when thousands of office workers would be rushing along the pavement to get to their places of work. How did no other cameras pick her up?â™ˆ

Customer Reviews

I felt that I was reading a piece of work written by a 6th grader. I had a hard time following due to the constant run on sentences and poor grammar. There are also no chapters, a story ends followed by asterisks and then a new one begins ... I wish I had not wasted \$2 on this "read".

It is amazing how many people have gone missing, by all kinds of experiences. I wonder how these people disappeared and nobody noticed until it was too late.

Very unbelievable weird who knows what ever happens to these poor people

Really good book! Unbelievable stories about people vanishing into thin air. I would recommend this book to anyone who doesn't get scared easily.

So far from what I'm reading it is very interesting, can't wait to download the rest to seek out more information.

This book presents random disappearances in a cursory way. No atmosphere, scant details, and nothing to link the cases. They range from obvious runaways and kinda pings to murders and simple naÃƒfÂ vetÃ© in the wilderness. Yes, a few are mysterious but the deadpan accounts lack much spark of interest. Would benefit from more research and longer accounts covering fewer cases. Focus on the genuinely spooky and baffling cases.
