# Evidence-Based Reading, Grade 3 (Applying The Standards)

## Synopsis

Evidence-Based Reading for grade 3 offers 64 pages of reading practice. It is aligned with the Common Core State Standards and includes a reading comprehension rubric, a standards alignment chart, and pages of reading passages with evidence-based questions to encourage higher-level thinking and thoughtful answers. Each question is designed so that students learn to support their answers with evidence from the text. A variety of literature and informational passages are included to engage learners in a range of texts. The Applying the Standards: Evidence-Based Reading series emphasizes close reading by requiring students to answer text-dependent questions in both literary and informational texts. This is a series of six 64-page books for students in kindergarten to grade 5. Various reading and vocabulary skills are covered, and a culminating reflection question for each passage engages students' higher-level thinking skills. Of particular emphasis throughout the series are the Common Core State Standards and the teaching of evidence-based reading.

## Customer Reviews

This workbook was recommended by our 3rd grade teacher and we like it a lot. Stories are short but interesting and educational. Great analytical questions. There is answer key at the end.

Exactly what I was looking for. Perfect common core resource for teaching students to find text evidence. Can't wait to use it this school year.

All products arrived ontime and in great condition. They were accurately described. That is exactly what it needs to be!
