Theologian Charles Hodge noted: "Original sin is the only rational solution of the undeniable fact of the deep, universal and early manifested sinfulness of men in all ages, of every class, and in every part of the world." And thus we need God's word and His saving grace to rightly understand our world. And to assist the believer in learning God's word, one needs to understand scriptural doctrines and truths. Moreover in "Westminster Dictionary Of Theological Terms" the reader finds

the proper definition of numerous biblical terms as well as doctrinal expressions employed by Christian scholars. Large yet not massive (310 pages), this excellent resource contains over 5000 Theological topics, subjects, and terms. Within this outstanding book one finds terms and definitions from:- the Bible- church history- the field of ethics- pastoral ministry- systematic theology- biblical theology- and a host of necessary and useful terms. McKim (professor Memphis Theological Seminary) offers etymologies of numerous essential vocabulary words (Hebrew, Greek, Latin). Words and doctrines such as exegesis, justification, imputation, salvation, and countless others are furnished in this easy-to-read volume. The writing is so clear, powerful, and simple it almost makes for a devotional read. It may not be that, but it is a potent and very useful tool for the devout believer, seminary student, or minister; a superb single-volume source that provides the student straightforward access to scores of theological definitions. Also makes for a fine Home School resource.
