The Constitution And The Declaration Of Independence: A Pocket Constitution

Synopsis

How often have people claimed that a certain thing was "in the Constitution" and you've wanted to pull out a copy to show them what this incredible document really says? This is the book you want to keep with you at all times: the full text of the Declaration of Independence and the Constitution, the two documents that are the backbone of United States government. Reading them as they were written is a must for every American. Regular reading is required for any historian or member of the legal profession, and a good idea for all Americans. Acclaimed Constitutional scholar Paul Skousen, author of *How to Read the Constitution*, frames this simple text with a brief preface and a summary of important facts about these two documents, including important dates, for the ultimate quick reference. Throughout the text of the Constitution, he provides a clear guide to parts that became invalid due to later amendments, making the current meaning clear. Without intruding on the meaning, Skousen gives you a great tool for understanding our most basic principles of good government. An inspiring introduction by New York Times best-selling author Dan Clark will put you in the right frame of mind to read and appreciate these great documents. This handy guide can become your best friend, and you'll want to keep a copy nearby. Fortunately, this little book will easily fit into your pocket or briefcase, top desk drawer, or iPad case. You'll may find you want to have extra copies around to hand out, too. Here is your chance to become an expert on two of the most important documents that shaped our country!

Best Sellers Rank: #43,655 in Books (See Top 100 in Books) [#35 in Books > Politics & Social Sciences > Politics & Government > Political Science > Constitutions](#)

Customer Reviews

Well I had never read this, except perhaps in public school when it did not seem as important as it does in these times. Recommend everyone get a copy and read it. You will see what some of the

politicians who know the constitution are waving red flags!

Not really a "Pocket Edition" this would fit easily in a car, purse or something else of the sort. A pocket, not so much which I wanted it for everyday carry until I memorize it well enough that I don't need it. But it is Easy to read the font and size is good on the eyes.

Don't make the mistake and buy this version of the pocket constitution. This version provides one man's skewed view of the constitution. Stay away, very far away!

This is a John Birch Society bastardization of the Constitution and is more propaganda than informative. There are much better and less polluted versions available. There is little of value to be found in this pseudo-religious tract.

This is a right-wing nutjob version of the Constitution. It has a bunch of religious propaganda that extremists use to justify their positions. Get a normal Constitution instead, not this one. (Do you really want to pay for propaganda?!)

Don't buy this version. More annotation than original text.

Glad I got this. As old as I am I had never really read the whole thing before. There is lots to think about when you read it and it sure makes a difference of how I will vote.

I have both the paperback and Kindle versions and love to study the Constitution when ever I have a spare minute. Great job by Mr Skousen.
