Game Of Thrones Psychology: The Mind Is Dark And Full Of Terrors

Synopsis

Insight is coming! This thought-provoking anthology offers a close examination of the psychology behind the intricate narrative and compelling characters in author George R.R. Martin's bestselling work, *A Song of Ice and Fire*, and the popular HBO TV series based upon his books, *Game of Thrones*. In Martin's richly detailed world, deceit, manipulation, and greed rule the day, and almost everyone fights for power over the realm or simply over their own lives. How do love and hate, good evil, need and greed, altruism and narcissism drive the very best and very worst human behaviors? With no moral boundaries honored, the psychological games played by the series' conniving protagonists are seemingly limitless. *Game of Thrones Psychology: The Mind is Dark and Full of Terrors* explores motivations, relations, personality disorders, psychopathy, trauma, and much more. What kind of person can survive the game of thrones, much less hope to win? Contributors include: Colt J. Blunt * Jenna Busch * Josu Cardona * Erin Currie * William Blake Erickson * Wind Goodfriend * Jonathan Hetterly * Stephen Hupp * Mark Caldwell Jones * Lara Taylor Kester * Dana Klisanin * Travis Langley * Jordan Gaines Lewis * Martin Lloyd * Kyle Maddock * Patrick O'Connor * Janina Scarlet * Jay Scarlet * Laura Vecchiolla * Dave Verhaagen * Dawn R. Weatherford
