"Good luck," my employer wished as he handed me a plane ticket and a tome of a background

packet. I was leaving on a critical six-week business trip to an alien state in the midwest. No problem - except that five days prior the law review had accepted me as one of three evening division 2Ls for candidacy and my first case abstracts were due in twenty days. Hmmm . . . From my hotel room, I scanned, identified, analyzed, condensed, reviewed, and rewrote the abstracts. Then did it again. And again. And again. But I was missing something. I was missing that "oomph" that propels a reader when reading legal material. And I didn't know what to do. I decided to take a "creative" break down at the local (bookstore). Of course, I immediately gravitated to the law section of the store and, before you could say "double espresso, please," I had found it! Burton's Legal Thesaurus. I opened the pages and my heart fluttered. Over 5,000 entries, legal synonyms for any legal term that came to mind, definitions, an overview of federal "plain language" requirements, associated legal concepts, and the list goes on! I wiped away a tear. I rushed back to my hotel room and my fingers began flying over the laptop. My abstracts sang with power and precision! I could feel the reader compelled - nay, helpless - to turn the page! Burton's Legal Thesaurus had saved the day! I was now a jurisprudence scholar! Eh, not really. But it really helped out when I didn't have access to my usual materials. However, one thing of which I can assure you, I'll be using this thesaurus for the rest of my career.
