Daily Language Review, Grade 4

Synopsis

Fourth grade students practice language skills covering punctuation, verb tense, conjunctions, word meaning, and more in ten- to fifteen-minute daily lessons. This new edition has been completely updated to support Common Core methodology and skill practice, and includes: Practice of the Conventions of Standard English and Vocabulary Acquisition and Use for grade 4, Using language in the context of writing and reading, Increased practice of academic and idiomatic vocabulary, and Exposure to sentences from all Common Core writing types (informational, narrative, and opinion/argument). 36 weeks of daily practice activities cover: Grammar and usage, Capitalization, punctuation, and spelling, Vocabulary word meaning and relationships, and Using acquired vocabulary.

Age Range: 3 and up

Grade Level: Preschool - 4

Customer Reviews

While this is not exactly a "grammar" book, it is well thought out. The book does not give five pages of adjective exercises, then five pages of adverb exercises, etc., like many text and workbooks. The student studies / corrects entire sentences at a time. It means that the student has a reason to remember the rules, because he is using them in context. We do not use this brand only as a review. We use them, with a little extra explanation, in everyday schooling. All our children love the variety, and the fact that the concepts are joined and mixed in everyday sentences. In short, the book provides more opportunities for using the principles studied, rather than just fill-in-the-blank

scenarios, which are quickly forgotten. If you as a parent / caregiver are not sure about grammatical principles yourself, this will not be the book to use by itself. However, with a few printouts / clarifications off the internet, it can be used by anyone.

This book is excellent for an individual child to use at home or a teacher to use in his or her classroom. I used this with my fourth grade class for morning work or for remediation. Pages are easy to copy or to make overheads. Answer key is available right after each selection, which is nicer than searching in the back of the book. It touches upon all Language arts skills in a nice format. I highly recommend this book!

I chose 5 stars for this purchase because it was exactly what it was advertised as, a valuable classroom asset, quick and easy to use. Great for second language learners and those behind 2 or more grades with skills. This book was \$26 at two teacher resource stores near where I live and it was 10 to 12 \$ cheaper through . ALL STANDARDS BASED!!!!

This book has 36 weeks of daily warm ups. Each day has a different set up, so the students will not get bored with them. However, every day there is at least one sentence to be corrected. I plan on using this in my classroom as daily warm ups, and the students will do one a day in a warm up notebook. This book also comes with a free e-book. The free e-book has the skills for each of the warm ups for this book, as well as activities that can be use in small groups or stations. I would definitely recommend this for any 4th grade ELA teacher or parent!

Language is a subject that can leave my children feeling frustrated. This workbook breaks it down into manageable bits. The lessons are very effective and I have seen a great improvement in their language assignments. A great resource to make a part of your daily lessons.

I teach 7th grade intensive students using Springboard materials and this was a nice supplement for activities or homework to have them practice their revision and part of speech activities. It is a bit of a challenge since they don't use the skills daily, but after only a few weeks, they are improving on this and in their writing!

Although I purchased a used copy, I am very pleased with this product. It has been a great daily review for my fourth graders. I also ordered the review for the fifth grade. I highly recommend these

books.

Used daily as a warm up for writing and editing, this book helped keep language rules and concepts in the fore front of my students' short term memory while eventually going into long term memory. They worked in cooperative groups to complete the 5-10 minute work time i allowed. This was followed by a whole class activity to go over responses for correction. Excellent book!
