The Economic And Political Aspects Of The Tobacco Industry: An Annotated Bibliography And Statistical Review, 1990-2004

Synopsis

This unique annotated bibliography guides the reader through the economic and political aspects of the tobacco industry from 1990-2004. The work provides access to quality print and electronic materials, and serves as the standard and comprehensive historical reference source for documents examining a critical side of the tobacco industry. Readers will learn about economic aspects such as packaging, products, sponsorships, military sales, and illegal trade (e.g. smuggling). Political facets include California's battle with the industry - politics, politicians, and lobbyists - and the various tobacco settlement agreements. Four appendixes provide statistical data (e.g. military and commissary tobacco sales), tobacco company profiles, selected tobacco litigation, duty-free and tax-free worldwide sales, and tobacco web sites.
