Customer Reviews

Despite of the fact the book is quite short, it can give some valuable information to the majority of women. Time after time we are making the same mistakes. But why we should, if we have the guide explaining the key points of the man-woman relations? I think this book deserves 5 stars.

This book is interesting to me because it is something I have never seen before. I always thought guys were the ones who had trouble "picking up girls". This book made me realize that the woman does play a very important role. I have had times where guys will not approach me or ask me out, but I didn't think there was anything I could really do to change this. This book opened my eyes! It taught me that if I truly value myself as a person I will have an easier time with men. Such great advice out of this. I especially liked the questions in order to learn more about myself. Don't hesitate to buy this great guide. You will see more improvement with men.

This book is interesting book. I like the advice where I think I can apply it to myself. This book is very good in giving advices. This is truly a book that excites me every time I read it. I like the steps to make him beg for your attention. It's cool and awesome though some tips are common and some tips are not my thing but I still like it. I am not that aggressive type of person but sometimes I thought of things that makes me believe that I need to make a step to catch the attention of someone I like. I like this book I am much related with this book. This is cool hope the author will have another book like this.

This book is a unique look into relationships and dating in today's world. This book is good not only for single women but for married women who want to make their man fall in love with them over

and over again. She gives some good tips on how to achieve a healthy, loving relationship with your man. I will be recommending this book to all my single lady friends and to a few of my married friends too!

Reading this book is like directly talking to a counselor. Everyone is different from each other, yet this book tries to understand each of its reader so that it can serve them in most suitable way. The simple steps are not that simple, actually. I also believe it takes time to see the results. So, prepare yourself. It all worths it, though. Because this book focuses on helping you to have a long-term relationship with a healthy man, yes, not just any man but a healthy one. Therefore you cannot be rush. It starts with a 20-question test that defines where you are, how you should change to your own better self. Next step is to practice and gain experiences. Once you are asked out, it's time to apply writer's date habit guidelines. Following is advices on how to keep him interested. Great read!

This book was awesome! It helped me figure out what to look for, what to consider and most importantly-how a man is going to perceive me and how utilize that perception! I was enthralled by the book and I will definitely recommend it to anyone who is looking for advice or simply information. This book left me feeling confident and educated. Five stars from me!

I like this book as it contains simple techniques. It's not really practically to be daring and wearing sexy clothes for women to get attracted but to wear the best you that you could ever be. One of the tips to consider here is the so called X factor that a woman must possess. What are they? Would recommend you to read this one lady. :)

I loved this book! I loved the message of it too.. That you have to love yourself first and need to know someone before you can love someone else. Very funny, relatable and easy to read! Good for any girl to read single, married or divorced and do recommend for all single girls! Lots of great techniques taught in this book!
