Customer Reviews

Love this book! Great resource. As a music teacher it cut my preparation time significantly. And even in this day of quick internet information, this book is the first place I go. The lists are not comprehensive, but I don't believe that's the point. It's a great starting point for any unit or focus that I want to direct my students. I am not disappointed and feel it's very worth the money.

Where was this my whole college experience?! An amazing resource for all musicians and music educators! Definitely worth every penny!!!

I was expecting a spiral bound book. Need to make a revised version with better type, layout, and graphics. Otherwise, the content is good and definitely usable for the classroom.

Fun book to own if you like music. Lots of facts and information to jog your memory and hunt up tidbits.

I just LOVE this resource! Thank you for your prompt service!
