The Homeschooling Book Of Lists

Synopsis

The Homeschooling Book of Lists is a comprehensive, authoritative, and user-friendly resource for homeschoolers or anyone considering teaching their child at home. Written by Michael and Mary Leppert, two experts in the field of homeschooling, this easy-to-use book is filled with information, tips, and resources that will help you give your child an outstanding education. Lists include:

- Homeschooling support groups, both religious and non-religious
- The top 100 homeschooling websites
- Homeschooling FAQs
- Who's who in homeschooling
- The top magazines and best books for homeschoolers
- Specific resources for each type of homeschooling: non-religious, Christian, Jewish, Catholic, Muslim, and Mormon
- Special needs homeschooling resources
- Recommended homeschool products and vendors for teaching: reading, language arts, math, science, spelling, geography, foreign language, P.E., and more
- Homeschool-friendly colleges
- Businesses with homeschool-friendly hiring practices

Customer Reviews

I got this book by accident because I was looking for the Homeschoolers Book of Lists, but this is still a good find. The other book is filled with topical information and lists to be used in the actual classroom, like lists of terms or historical dates. This book in contrast is a guide for resources to be used by the teacher, like lists of websites on Charlotte Mason, or lists of curriculum publishers, teaching styles, etc. I learned a lot right away. Great information to have on hand. Will add nicely to

my reference library. I didn't give it 5 stars because in some areas I felt it was a little too brief, but they do at least direct you to several resources to get more info.

The lists are great but I have found about half of the websites I was looking for in Unit Studies were no longer available. It's just the nature of this kind of book that will happen but then there should be a way to get updates, like on the website or e-mailed or else print an updated version every year or so.

I'm preparing for homeschooling and I checked out this book from the library and found it extremely helpful. It is a bit brief but it gets straight to the facts which I like so it's not overwhelming. I liked it so much I just ordered a used copy on . I think if you are a beginner and looking for some resources, I would for sure buy this book
